Ramanathapuram, Tamil Nadu

SUMMARY

B.Tech IT graduate (CGPA 7.45) with hands-on experience in Python development and web development. Built an international conference-published AML detection system and a responsive web project; completed two industry internships with real-world Python and web stacks. A highly motivated fast learner eager to contribute and grow in a challenging developer role.

TECHNICAL SKILLS

Programming Languages	Python, JavaScript
Web	HTML5, CSS3, DOM Manipulation, Responsive Design
Database	MySQL, Oracle SQL
Tools	VS Code, GitHub, Git, Canva, Excel, MS Word
Concepts	OOP, Data Structures, Version Control
Soft Skills	Problem Solving, Team Collaboration, Analytical Thinking, Quick Learner, Attention to Detail

EDUCATION

B.Tech — Information Technology CGPA: 7.45 | 2022 – 2026

P.A. College of Engineering and Technology, Pollachi

Class XII — Higher Secondary Certificate 76.6% | 2021 – 2022

Syed Ammal Matriculation Boys Higher Secondary School, Ramanathapuram

Class X — Secondary School Certificate 75.2% | 2019 – 2020

Syed Ammal Matriculation Boys Higher Secondary School, Ramanathapuram

PROJECTS

Responsive Movie Rating Website HTML5 · CSS3 · JavaScript

- Built a fully responsive movie rating website using HTML5, CSS3, and vanilla JavaScript featuring dynamic star ratings, genre filtering, movie search, and card-based UI with CSS Grid and Flexbox.

Proactive Anti-Money Laundering System Python · LSTM · Pandas · NumPy

- Built a proactive AML detection system using stacked LSTM neural networks trained with Pandas and NumPy pipelines; engineered features like transaction velocity and balance deviation scores to identify suspicious financial patterns with 90%+ accuracy and a lower false positive rate than rule-based systems.

INTERNSHIPS

MSquare — Web Development Intern Dec 2024

- Developed responsive web pages using HTML5, CSS3, and JavaScript; built interactive UI components including navigation menus, image carousels, and validated contact forms.
- Implemented mobile-first layouts using CSS Flexbox and media queries, ensuring cross-browser compatibility and consistent UI across desktop and mobile devices.

Live Stream Technologies — Python Development Intern Jun 2024

- Developed Python scripts to automate data processing tasks and built reusable utility functions under industry mentorship.
- Used Pandas and NumPy to clean and process real-world datasets; implemented Python-based solutions to handle missing values, duplicates, and data formatting tasks.

CERTIFICATIONS

- Python Certification — **Udemy** [Mar 2025]
- JavaScript Basics Certification — **Infosys Springboard** [Oct 2024]
- SQL Developer Certification — **Infosys Springboard** [Jul 2024]

RESEARCH & ACHIEVEMENTS

- Presented paper on Smart Home Automation at Anna University Regional Campus, Coimbatore [Apr 2025].
- Presented research paper on Proactive Anti-Money Laundering System at an International Conference hosted by New Prince Shri Bhavani College of Engineering & Technology [2026].
- Executive Member, IT Department Association — planned and executed departmental technical events.
